

# Rockfon Metal Perimeter Trim

Infinity™ Perimeter Trim

Project – Traders Point in Whitestown, IN

The image shows a bright, modern hospital lobby. In the center is a large, stylized tree sculpture with a thick trunk and branches. The branches are decorated with green, cloud-like shapes and several white birds in flight. The ceiling is white with large, circular recessed lighting fixtures. The floor is polished and reflects the light. In the foreground, there are several small, round tables with colorful chairs (yellow, orange, and pink). To the right, there is a curved counter with a white top and a wooden base. The background shows a large window and a staircase.

## ROCKFON METAL PERIMETER TRIM

Infinity™ can be that element in a space that heightens the overall visual appeal. As a smooth, distortion-free, and labor-saving perimeter trim, it's attractively suited to the creation of free-floating islands, projections and dramatic transitions between ceiling heights.
