* Coordinating solid color to match Metalwood Woodgrain Finishes.

** Metalwood Woodgrain Finishes not available for Rockfon Infinity; use coordinating solid color. See footnote *.

† Woodscenes Painted Finishes are a decorative powder coat finish that replicate real wood; variations in color and pattern will occur.

Note:

- Woodscenes grain direction is parallel to the length of the trim.

- See rockfon.com for more information on color options.

Colors shown are reproduced as close as possible to actual product color within the limitations of printing technology. Color chips are available upon request and should be reviewed before making a final selection. Variations in color matches of system components to ceiling panels can result from slight differences in texture, room lighting, painting process and subjectivity of observers.

Infinity R Suspension

Infinity R Reveal Edge Profile is compatible with:

- Chicago Metallic Ceiling Suspension systems
- Rockfon Metal Ceiling suspension systems
- Industry standard T-Bar grid systems

See data sheets of Chicago Metallic Ceiling Suspension systems and Rockfon Metal Ceiling systems for more information.
