Our brand new training centre

We are very proud to have opened our new facility in July 2023!

Whether you're a distributor, installer, designer, acoustician or anything between, we have a range of courses for you to choose from. They range from half day taster sessions through to deep dives into advanced Rockfon systems.

All courses are a mixture of theory and hands-on practical training. Our aim is to help you expand your knowledge and expertise to benefit your client and your business – and have some fun whilst you're at it.

Meet **Mark Tarrant**, our new Technical Trainer

"We have eight 'standard' courses for you to choose from or we can mix and match courses to suit you.

All abilities and levels of experience are very welcome."

Overview of courses

COURSE CATEGORY	Course title	Participation criteria	Suitable for (e.g.)	
Suspended ceilings	Suspended ceilings for beginners: theory and installation	Anyone new to ceilings and interiors and who is not 'hands on' on site	Specifiers, site managers, regional managers, branch staff, back office teams	
Suspended ceilings	Introduction to Rockfon suspended ceiling systems: theory and installation	Min of 1 years' experience in ceilings and interiors	Installers, specifiers, main contractors, fit out companies	
Suspended ceilings	In depth look at Rockfon ceiling systems: theory and installation	Min of 2 years' experience in ceilings and interiors	Experienced installers, specifiers, contractors, fit out companies	
Exposed soffit ceiling solutions	Rockfon acoustic islands and baffles: theory and installation	Installers with a min of 1 years experience in ceilings and interiors, specifiers	Installers, specifiers, contractors, fit out companies	
Wall lining solutions	Rockfon acoustic wall linings: theory and installation	Installers with a min of 1 years experience in ceilings and interiors, specifiers	Installers, specifiers, contractors, fit out companies	
Seamless acoustic ceilings	An introduction to Rockfon Mono Acoustic: theory and installation	None	Specifiers, clients, main contractors	
Seamless acoustic ceilings	Mono Acoustic Certified Installer Training	Min of 2 years' experience in ceilings and interiors	Installers	
Sector specific courses	Understanding the properties and performances of acoustic solutions for the education, healthcare, office and leisure sectors	None	Specifiers, clients

	10.00 - 17.00	8	£49	<p>Choose which sector interests you the most and we will tailor a course for you:</p> <ul style="list-style-type: none"> Acquire a good understanding of acoustic compliance and regulation requirements Understand typical acoustical challenges and Rockfon's acoustic solutions

Suspended ceilings for beginners: theory and installation

OBJECTIVES

Discover the fundamentals of suspended ceilings:

1. Identify the products necessary to install a suspended ceiling
2. Acquire a good understanding of Rockfon ceiling systems from hands-on training

Participation criteria:

- Anyone new to ceilings and interiors and who is not 'hands on' on site

DETAILED PROGRAMME

- 10.00 – 15.00
- Why use a suspended ceiling?
- Identify the components necessary to install a T24 suspended ceiling
- How to calculate/quantify materials
- Layout choices
- Install a perimeter wall angle trim
- Install a suspended ceiling grid, how to check the grid is level
- Install ceiling tiles
- Cut tile perimeter and room perimeter finishing options

PRICE

- £49 per person for non-MyRockfon members
- 490 Volcano Points for MyRockfon members

What to bring:

- Safety shoes and comfortable clothing, preferably a top with long sleeves

Provided during the course

- Refreshments including lunch

Introduction to Rockfon suspended ceiling systems: theory and installation

OBJECTIVES

Discover the fundamentals of suspended ceilings:

1. Identify the products necessary to install a suspended ceiling
2. Acquire a good understanding of Rockfon ceiling systems from hands-on training
3. Understand the performance of suspended ceilings

Participation criteria:

- Minimum of 1 year's experience in ceilings and interiors

DETAILED PROGRAMME

- 10.00 – 17.00
- Identify the components necessary to install a T24 suspended ceiling
- Understand acoustic, fire and other performance capabilities of suspended ceilings
- Installation theory and Good Practice Guide
- How to quantify material requirements
- Layout choices
- Install a perimeter wall angle trim
- Install a suspended ceiling grid, how to check the grid is level
- Install ceiling tiles
- Cut tile perimeter and room perimeter finishing options

PRICE

- £49 per person for non-MyRockfon members
- 490 Volcano Points for MyRockfon members

What to bring:

- Safety shoes and comfortable clothing, preferably a top with long sleeves

Provided during the course

- Refreshments including lunch

An in-depth look at Rockfon ceiling systems: theory and installation

OBJECTIVES

Deepen your knowledge of Rockfon suspended ceiling systems, choose which system interests you:

1. Corridor and longer span ceilings
2. Semi-concealed and concealed systems (M,X and Z edge systems)
3. Exposed and semi-concealed systems (A & E edge systems)

- Identify the components and assembly of the system
- Best installation practice
- Understand the relative advantages of each system

Participation criteria:

- Minimum of 3 year's experience in ceilings and interiors

DETAILED PROGRAMME (below is an example of a Corridors course)

- 10.00 – 17.00
- Challenges of installing in corridors or narrow spaces
- Introduction to the Rockfon Corridor Solutions Navigator
- Traditional soffit fixed vertical suspension
- Alternative methods to vertical suspension
- Installations in corridors up to 1.8m wide
- Installations in corridors 1.8 – 3.0m wide

PRICE

- £90 per person for non-MyRockfon members
- 900 Volcano Points for MyRockfon members

What to bring:

- Safety shoes and comfortable clothing, preferably a top with long sleeves

Provided during the course

- Refreshments including lunch

Rockfon acoustic islands and baffles: theory and installation

OBJECTIVES

Learn about Rockfon options for exposed soffit projects

1. Acquire a good understanding of Rockfon islands and baffles from hands-on training
2. Understand layout choices and how to calculate the number of islands/ baffles required in a space

Participation criteria:

- Minimum of 1 year's experience in ceilings and interiors

DETAILED PROGRAMME

- 10.00 – 17.00
- Overview of Rockfon island and baffles products
- Understanding acoustic and other performance capabilities of islands and baffles
- Identify the components necessary to install an Eclipse islands and Contour baffles
- How to quantify calculate the number of islands/baffles required
- Vertical suspension or direct fix to soffit
- Layout including shape, colour and suspension depth choices
- Install the islands and baffles

PRICE

- £45 per person for non-MyRockfon members
- 450 Volcano Points for MyRockfon members

What to bring:

- Safety shoes and comfortable clothing, preferably a top with long sleeves

Provided during the course

- Refreshments including lunch

Rockfon acoustic wall lining solutions: theory and installation

OBJECTIVES

Explore Rockfon's acoustic wall lining solutions, choose which system interests you

1. Timber-slatted solutions (Lamella)
2. Impact resistant solutions (VertiQ A24 and VertiQ HAT A)
3. Functional solutions on high walls (Boxer, Color-all)
4. Functional solutions on low walls (VertiQ C and VertiQ HAT A)

- Acquire a good overview of Rockfon's wall lining solutions through theoretical and hands-on training

Participation criteria:

- Minimum of 1 year's experience in ceilings and interiors

DETAILED PROGRAMME

- 10.00 – 17.00
- Overview of Rockfon's acoustic wall lining solutions
- Understanding acoustics, resistance impact and other performance capabilities of wall panels
- Layout choices and how to calculate the number of wall panels required in a space
- Identify the components/products necessary for installation
- Install perimeter trim
- Install wall panels, wall angles and profiles

PRICE

- £90 per person for non-MyRockfon members
- 900 Volcano Points for MyRockfon members

What to bring:

- Safety shoes and comfortable clothing, preferably a top with long sleeves

Provided during the course

- Refreshments including lunch

An introduction to seamless acoustic ceilings and wall linings

OBJECTIVES

This is a taster session for the 3-day Certified Rockfon Mono Acoustic training session, to give installers and specifiers an insight into the system

Participation criteria:

- Minimum of 1 year's experience in ceilings and interiors

DETAILED PROGRAMME

- 10.00 – 17.00
- Presentation on the general principles of the system
- Visual inspection of metal grid and fixed panels
- Visual inspection of filled joints, sanded and unsanded
- Spraying the acoustic render and handling the Airless machine

PRICE

- £90 per person for non-MyRockfon members
- 900 Volcano Points for MyRockfon members

What to bring:

- Safety shoes and comfortable clothing, preferably a top with long sleeves

Provided during the course

- Refreshments including lunch

Certified Mono Acoustic Installer Training

OBJECTIVES

This is the training necessary to become a Certified Rockfon Mono Acoustic installer

1. Understand the Rockfon Mono Acoustic system
2. Hands-on training of all of the steps necessary to complete the system

- Identify the components and assembly of the system
- Best installation practice
- Understand the relative advantages of different systems

Participation criteria:

- Minimum of 2 years' experience in ceilings and interiors

DETAILED PROGRAMME

Day 1: Tuesday

- 12.00 - 13.00 Welcome and lunch
- 13.00 - 14.00 Introduction
- 14.00 - 15.30 Theory and installation of panels
- 15.30 - 17.00 Tape and filler

Day 2: Wednesday

- 08.30 - 11.00 Set up machine and protection material, first render layer and prefill joints
- 11.00 - 12.30 Theory and grid installation
- 12.30 - 13.30 Lunch
- 13.30 - 15.30 Theory of service integration, repairing/ refreshing, site conditions
- 16.00 - 17.00 Second render layer and joint filling

Day 3: Thursday

- 08.30 - 10.30 Sanding and joint inspection
- 10.30 - 11.00 Final render layer
- 11.00 - 12.00 Test and evaluation

PRICE

- £490 per person for non-MyRockfon members
- 4900 Volcano Points for MyRockfon members

What to bring:

- Safety shoes and comfortable clothing, preferably a top with long sleeves

Provided during the course

- Refreshments including lunch

Sector-specific courses

WHICH SECTOR(S) INTERESTS YOU?

We also run courses concentrating on specific sectors. You can choose one or a mixture of the following:

- Education
- Healthcare
- Workspace
- Leisure/hospitality

OBJECTIVES

1. Acquire a good understanding of acoustic compliance and regulation requirements
2. Understand typical acoustical challenges and Rockfon's acoustic solutions

Participation criteria:

- Minimum of 1 year's experience in ceilings and interiors

DETAILED PROGRAMME

- 10.00 – 17.00
- This will depend on the level of competence/experience of participants

PRICE

- £90 per person for non-MyRockfon members
- 900 Volcano Points for MyRockfon members

What to bring:

- Safety shoes and comfortable clothing, preferably a top with long sleeves

Provided during the course

- Refreshments including lunch

MyRockfon loyalty programme member?

You can use your Volcano points to spend on whatever training course you like!

Not a member? If you've not joined our exclusive installers club where you earn points to spend on free merchandise, monthly competitions, free PR and more, just head over to: www.myrockfon.co.uk. It's free and easy to join.

Where to find us

Rockfon Training Centre

7&8 Badby Park
Heartlands Business Park
Daventry
Northamptonshire
NN11 8YT

Tel: 01656 868 446

Email: traininguk@rockfon.com
